FIG. 2B is a block diagram of a computer system 10 according to one embodiment of the present invention. The computer system 10 includes a CPU 120, main memory 122, a modem 124, a display controller 130, a display 126, a sound controller 134, a speaker 128, a USB controller 102, and a USB port 104. The CPU 120 is connected to the main memory 122, the modem 124, the display controller 130, the sound controller 134, and the USB controller 102. The main memory 122 is connected to the display controller 130. The display controller 130 is connected to the display 126. The sound controller 134 is connected to the speaker 128. The USB controller 102 is connected to the USB port 104. The computer system 10 is shown in a dashed line box.
